

Covid 19 Cleaning Precautions

During this difficult time, we want to encourage you by letting you know the following policies that we have in place:

- Sending a solo cleaning tech who will socially distance in your home
- Washing hands well with soap and water for 20 seconds (before we start your cleaning/during and after)
- Not touching our face with our hands
- Social distancing at all times
- Placing used cleaning cloths in proper place to disinfect before another use
- Disinfecting points of touch in your home
- Disinfecting our cars/phone, etc., at points of touch
- Educating and training our employees*
- Encouraging employees with any symptoms of the virus, or who have been exposed to someone with the virus, to stay home

For an Additional Service Fee, the following are available:

- Diffusing virus killing essential oils into rooms while cleaning
- UV wands to borrow and use in your home for added protection
- Steaming floors (helps kill virus)

*Recent certification in disinfecting cleaning by GBAC (Global Biorisk Advisory Council)
